1. QUESTIONS ABOUT LEARNING ACHIEVEMENT			
1.	1.1. What are Learning Outcomes?	The expected indicators of what the learner should know, understand and / or be able to accomplish upon completion of the learning process. They can be related to one discipline, module, or period of training, and to the educational program as a whole.	for students of all levels of education
2.	1.2. What is current monitoring of academic progress?	These are grades that a student systematically receives for completing assignments in classroom and extracurricular activities (SSWT, SSW) during the entire period of studying the discipline. The types of tasks and the number of grades for current control are described in detail in the syllabus of the discipline. Each student can get to know with the syllabus of the discipline in advance in his personal account in the AIS "Sirius" system.	for students of all levels of education
3.	1.3. What is a score distribution curve (Bell Curve)?	<p>The Bell Curve is the main element of the statistical analysis of teaching and grading, based on the results of the examination session, obtained in the form of a diagram of the normal distribution of student grades, that is, it is based on the principle of grades ranking, according to which the grades are “excellent” (A, A-) and “Good” (B +, B, B-) can be obtained by no more than 35% of all students in this group, and the mark “unsatisfactory” (F, FX) - not less than 10%. At the same time, at least 55% of all students must receive grades C +, C, C-, D +, D. The breadth of use by teachers of the entire range of grades is ensured.</p> <p>The use of the grades distribution curve is due to the anomalous scale of devaluation of the assessment of competencies, that is, there is a tendency that teachers often overestimate the grades, and also average grades to students without distinguishing among them the most / least literate and competent.</p> <p>Bell Curve is about breadth of use analysis teachers of the entire range of grades,</p>	for students of all levels of education

		<p>from 0% to 100%, according to the assessment criteria defined in the syllabuses and works assessment sheets, in accordance with the goals and objectives of the discipline, with the obligatory prior familiarization of students with these assessment criteria.</p> <p>In the Bell Curve process, grades should be distributed in the following ratio (Universities, members of the Academic Integrity Of The League, it should seek to comply with):</p> <p>"A", "A-" (90-100%) - no more than 10% of the total number of students in the abstract group;</p> <p>"B +", "B", "B-" (75-89%) - no more than 25% of the total number of students in the abstract group;</p> <p>"C +", "C", "C-" (60-74%) - at least 30% of the total number of students in the abstract group;</p> <p>"D +", "D", "D-" (50-59%) - at least 25% of the total number of students in the abstract group;</p> <p>"F" (0-49%) - at least 10% of the total number of students in the abstract group.</p>	
4.	1.4. What is the system for assessing academic progress at KazNMU?	<p>The university has a point-rating letter system for assessing the accounting of educational achievements:</p> <p>Assessment "Excellent" (from 90-100 points) - the student shows a deep understanding of the topic of the lesson, the ability to think logically, skills, constantly reads additional literature and does in-depth analysis on certain topics of the discipline, independently works with databases and search engines (Pubmed, Medline , Cochrane, etc.), is able to find and critically evaluate scientific publications, makes literary reviews.</p> <p>Assessment "Good" (from 70-89 points) - the student has the necessary amount of knowledge and skills, correctly applies them when performing practical tasks, reads the basic literature on the discipline, independently works with databases.</p> <p>Assessment "Satisfactory" (from 50-69 points) - the student has a volume of knowledge and skills only of the basic material of the discipline, has difficulty in performing practical tasks, makes inaccuracies, is not proactive, and makes little use</p>	for students of all levels of education

		<p>of available sources of information.</p> <p>Assessment "Unsatisfactory" (from 0-49 points) - the student does not have the minimum amount of necessary knowledge and skills, does not read literature, is not proactive, does not use available sources of information.</p> <p>Detailed criteria for checklists are described in the discipline syllabus.</p>	
5.	1.5. When a student passes the final control?	<p>The final control for each discipline is carried out during the period of intermediate certification (examination session). Final control forms can be: exam or differential credit. To pass exams and dif. credits are allowed for students who have scored at least 50 points. The maximum possible score is 100 points. The types of exam / grading and assessment criteria are described in detail in the syllabus.</p> <p>If the exam consists of two stages, then one stage (practical) students pass after the completion of the discipline / cycle, and the second stage (testing / written) - during intermediate certification. The final mark for the exam is as follows - 50% of the mark for the first stage, and 50% of the mark for the second stage. Final grade sheets are generated during the intermediate assessment period, i.e. students can find out the final grade for the discipline in the period intermediate certification in your personal account.</p>	for students of all levels of education
6.	1.6. What is midterm attestation?	<p>A procedure carried out during the examination session in order to determine the level of mastering by students of the content of an academic discipline, after completing its study, in accordance with the Individual curriculum.</p> <p>Intermediate attestation (examination session) is carried out after each semester lasting from 2 to 4 weeks, depending on the number of exams.</p> <p>According to the results of the intermediate attestation, a scholarship is assigned, the results of the study are the basis for transfer to the next course.</p>	for students of all levels of education
7.	1.7. Why lectures on disciplines are practically not read?	<p>Lecture materials for each discipline are provided in the form of video lectures / presentations, which should be provided by the department to students at the very beginning of the study of the discipline.</p> <p>According to the credit technology of teaching, students are given more opportunities for independent study of the material at any time and in any format, so as not to be tied to a specific schedule. In classrooms and do not form large flows of</p>	for students of all levels of education

8.	1.8. What is retake (FX) of discipline?	If a student receives scores from 25-49 for the exam or differential credit, then he is obliged to retake the “unsatisfactory” mark corresponding to the “FX” mark once. The student has the right to retake no more than once during the intermediate certification without re-passing the discipline according to the retake schedule. It is not allowed to postpone the retake for the summer additional semester.	for students of all levels of education																																																																																				
9.	1.9. If a student, after the first retake of the FX assessment, receives a second unsatisfactory mark, then what opportunities he has to pass the discipline?	Yes, the student has the opportunity to retake no more than once during the intermediate attestation. 10.	1.10. What are prerequisites?	<p>(Prerequisites) - disciplines containing knowledge, skills and abilities necessary for mastering the studied discipline.</p> <p>Students who have not received the final grade in the prerequisite disciplines cannot proceed to the next course. List of prerequisites educational programs /specialties are presented in the Academic Policy in Appendix 1.</p>	for students of all levels of education
11.	1.11. What is an individual learning trajectory?	<p>One of the principles of credit education technology is the construction of an individual educational trajectory. According to this principle, a student from the first year (in the first year, mainly compulsory disciplines) draws up an individual curriculum (IC) for the academic year.</p> <p>Advisors help students in choosing disciplines for IC. IC consists of the disciplines required for study and the discipline of your choice (electives). The catalog of elective disciplines is available to students in AIS Sirius. Students must register for disciplines according to academic calendar.</p>	For Baccalaureate students, internships
12.	1.12. How can you register for a discipline?	<p>Registration for disciplines is carried out in accordance with the academic calendar.</p> <p>The catalog of elective disciplines (CED) is available to students at AIS Sirius to get acquainted with the summary of the disciplines and the expected learning outcomes. Registration for disciplines is carried out in AIS Sirius through the student's personal account.</p>	for students of all levels of education
13.	1.13. What are the main regulatory documents of the University that the student should know?	<ol style="list-style-type: none"> 1. <u>Academic policy for the 2020-2021 academic year</u> 2. <u>Code of Academic Integrity of Students</u> 3. <u>Internal regulations of students</u> 4. <u>Regulations on the current monitoring of progress, intermediate and final certification of students of the NJSC "S.D. Asfendiyarov Kazakh National Medical University"</u> 5. <u>Rules for organizing the educational process in a distance format (Appendix 9)</u> 	for students of all levels of education

14.	1.14. Is the student obliged to sign an acquaintance with the above documents?	According to the academic policy of the university at the beginning of the academic year, students are required to get to know with the internal regulatory documents of the University and sign familiarization sheets at the dean's offices of the respective Schools.	
15.	1.15. Is there a choice of a teacher at the University?	In the 2019-2020 academic year, the choice of the teacher was fully implemented in the specialties of Public Health and Nursing. For the rest of the specialties, the technical capabilities in the Sirius system are being finalized due to the large contingent of students.	for students of all levels of education
16.	1.16. Is there a mechanism for the student's accumulation of grade points throughout the entire period of study in the discipline?	When calculating the admission rating (ARA), all the marks that are given by the teacher during the period of studying the discipline are taken into account; you can get to know in detail in the syllabus. To obtain an estimate of the diff. credit takes into account all the marks received during the midterm controls, of which the examination mark is made up, you can get to know in detail in the syllabus.	for students of all levels of education
17.	1.17. What are the basic requirements for transferring from course to course?	The basic requirements for transferring students from course to course are: 1. mastering disciplines in accordance with the student's individual curriculum: - no debts for prerequisite disciplines; - students with academic debts of no more than 12 ECTS in disciplines that are not prerequisites can be transferred. - for first-year students: no debts in the disciplines of the first academic period. 2. elimination of arrears in all disciplines of the previous academic year 3. lack of financial debt. In case of non-compliance with one of the above requirements, students remain for a second year of study on a paid basis, are deprived of the state educational grant.	for students of all levels of education
18.	1.18. What is the re-study of the discipline (recycle)?	This is a repeated passing of the discipline on a paid basis in case of receiving a final grade of "unsatisfactory" (Retake) or in order to increase the grade point average (GPA).	for students of all levels of education

19.	<p>1.19. 20.	1.20. What is a transcript?	<p>Transcript (Academic Transcript) - a document containing a list of disciplines mastered for the corresponding period of study, indicating credits and grades in literal and numerical terms.</p> <p>The transcript contains the following: full name of the student; school / faculty name, specialty, course; duration and form of studying; the disciplines passed, indicating the number of credits and final grades, all academic disciplines and (or) modules that the student studied, indicating the final grade, including FX and F grades are recorded; Grade Point Average (GPA).</p> <p>In addition, the transcript indicates the reasons for expulsion (for example, for academic failure).</p> <p>The transcript is issued by the Office of the Registrar at the request of the student for any period of his studies at the University.</p>	for students of all levels of education
21.	1.21. Is it possible to pass the discipline at another university and transfer to KazNMU?	<p>Students can study certain disciplines (within the framework of the educational program) in other educational organizations, including abroad, the learning outcomes are recognized and re-read by the decision of a specially created Commission (this does not apply to disciplines for which there are debts).</p> <p>To do this, you must write an application to the appropriate dean's office and attach a confirmation (certificate / transcript indicating the volume and assessment of the discipline studied).</p> <p>As soon as the commission for the transfer of learning outcomes makes a decision, your disciplines will be included in the transcript.</p>	for students of all levels of education

22.	<p>1.22. Does the university carry out the transfer of student loans that were previously mastered in other universities, secondary vocational educational institutions, schools?</p>	<p>For transferred and restored students from other universities, credits of previously studied disciplines are transferred according to the learning outcomes of the educational program to which the student is enrolled.</p> <p>Credits of previously studied disciplines of secondary, secondary vocational educational institutions are transferred. For example, the University rereads disciplines from the cycle of general education disciplines (GED) - such as foreign language, Kazakh / Russian language, ICT for graduates of Nazarbayev Intellectual Schools (NIS).</p> <p>For college graduates, programs are implemented with a shortened training period, taking into account the recalculation of previously mastered disciplines / learning outcomes (pharmacy based on secondary, higher education with a training period of 2.5-3 years, Nursing on the basis of secondary education - 2.5 years).</p>	<p>for students of all levels of education</p>
23.	<p>1.23. Who is awarded the scholarship?</p>	<p>The state scholarship is assigned to students, interns, undergraduates studying on a grant, as well as those transferred to study on a grant, who received the results of intermediate certification (examination session) of students as "good", "excellent", and is paid monthly from the first day of the month following intermediate certification of students, inclusively until the end of the month in which the semester ends and holidays. If a modular discipline has a duration of one academic year, then the scholarship is paid according to the final grades of the disciplines of the first semester included in the module.</p> <p>If the students have academic debt, the results of the liquidated debt are taken into account when assigning a subsequent scholarship (if there is a debt, the scholarship is not assigned).</p> <p>For doctoral students, students of residency studying on a grant, a state scholarship is assigned for the entire period of study and is paid regardless of the results of intermediate certification (examination session) during the entire period of study.</p> <p>Students enrolled in the first year (first year of study) on a grant are assigned a state scholarship in the first semester and paid monthly during the first semester. In the next semesters, students, interns, and undergraduates receive a state scholarship</p>	<p>for students of all levels of education</p>

		based on the results of the intermediate certification of students for the previous semester. You can familiarize yourself with the rules for the payment of state scholarships in more detail in paragraph 16 of the Academic Policy of the university.	
24.	1.24. When does a student lose his scholarship?	<p>In the event that, according to the results of intermediate certification (examination session), he receives marks "satisfactory" and / or "Unsatisfactory", the student will lose the scholarship for the next semester. If at the end of the next examination session the student receives "good" and "excellent" marks, then the scholarship is again assigned to him.</p> <p>It is very important: if the student has not eliminated academic debt in the summer semester and the transfer to the next course is carried out with academic debt, then the scholarship is not awarded until the elimination available academic debt. The scholarship is awarded from the date of elimination of academic debt from the 1st day of the next month.</p>	
25.	1.25.
